According to the provisions of *OMT no. 290/2000*, for realizing the surveillance by means of technical inspection actions, of the critic rail services provided from the risk class 1A in the year 2010, **Aprodex** Pascani concluded with AFER **the contract of technical inspection no. 369/2015.**

The company belongs to **the Romanian Association of Construction Entrepreneurs (ARACO).**

## Staff

For realizing the best quality works, for satisfying the customer's necessities and for respecting the legal requirements of regulation, APRODEX uses authorized staff, attested and trained appropriately to the required level and grade of complexity.

## The technical insurance:

Our company disposes of a large series of **earthmoving, railway equipment, the whole range of equipments and small mechanization devices** necessary for the execution of

the construction works, capital repairs and current maintenance of the railway lines, strategically placed in the activity areas in order to promptly answer to our customer's requests.

For checking the works quality, the society disposes of **metrological checked measurement devices**.

## The Quality

For the execution of the works specific to the field of activity, **aprodex** possesses **qualification certificates, authorizations and technical agreements** issued by the competent authorities.

As well, the **integrated management system** elaborated, implemented and certified, according to the requirements of the standards **ISO 9001:2008, ISO 14001:2005 and OHSAS 18001:2008**, aims to ensure the increase of the economical and quality efficiency as well as the preservation of the worker's life and integrity, the protection of the environment, the general increase of life quality.

**APRODEX** recognizes that the management of the quality, environment, health and occupational security (SMI) are important factors for satisfying the high level requirements of its customers and for establishing trust relationships with these ones, fundamental premise for the company's business development.

We believe we can thrive and grow only by meeting our customers' wishes. Therefore we use all resources available for that, finally, to present a product of the highest quality.

***Best Regards,***

*Aprodex TEAM*
